Re: USPTO application # 09/725/030

Dear Dr. Christopher Low,

As a follow up to our phone conversation, we will be amending the application to a continuation based on the fact that two inventors are the same as the preceding patent. This may change some of the objections that the examiner has for the present application, in which case there maybe no need to change examiners as requested in the previous fax.

Ashley Davis,

Tel: 303-322-2254.

Ashley Davis
